Juan

If I can get the lab to generate an EDD similar to the spreadsheet titled Lab_Validated_EDD_Example, will that suffice? This appears to be the easiest format to create in short order.

Sincerely,

Brad,

Thanks for sending the data, but this wasn't the format I was looking to receive the data in. Refer to attached the files which are example of how Electronic Data Deliverable (EDD) is submitted to us. Essentially, I didn't want a summary of data from you but all of the lab validated data in one database that would allow me to perform whatever analysis I chose to do. Take a look at example files attached and let me know if this would be a format you could resend the data.

Thanks.

Juan

Per your request, please find attached an excel spreadsheet (with 4 different worksheet tabs) which summarize the recovery well and monitoring well groundwater analytical results.

Please let us know if you need anything else.

Sincerely,
